Labial adhesions ·
Undescended testicles

HOSPITAL
Acibadem Maslak Hospital,
İstanbul

DEPARTMENT
Pediatric Surgery

CLINICAL FOCUS

Dr. Şen's areas of expertise cover many of the surgical problems seen in childhood. In pediatric urology and genital surgery, he treats undescended testicles, hypospadias, hydrocele and spermatic cord cysts, and labial adhesions.

His expertise further extends to pediatric kidney transplantation, which sits within the broader field of pediatric surgery. Each child is assessed individually, and whether observation, non-surgical measures or an operation is appropriate depends on the child's age, diagnosis, symptoms and general health.

Labial adhesions Undescended testicles Hirschsprung disease
Hypospadias Hydrocele and spermatic cord cysts

CONDITIONS TREATED

Labial adhesions Undescended testicles Hirschsprung disease
Hypospadias Hydrocele and spermatic cord cysts
