CLINICAL FOCUS

Dr. Özcan's practice covers several groups of psychiatric conditions. In the area of mood disorders, he sees patients with major depression and bipolar disorder. His anxiety-related work includes anxiety disorders, panic disorder, obsessive-compulsive disorder and post-traumatic stress disorder. He also evaluates and manages hyperactivity.

A further part of his practice concerns sleep. Dr. Özcan assesses sleep disorders, including insomnia and sleep apnea, and considers them together with the patient's overall psychiatric picture rather than in isolation. In addition, he provides family and marital counselling for couples and families who are dealing with relationship difficulties or with the effects of a family member's mental health condition on the wider...

INTERNATIONAL PATIENTS

Dr. Özcan consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports, such as previous medical and psychiatric reports, laboratory results and discharge summaries, arranges appointments and organises the hospital visit.
