CLINICAL FOCUS

The core of Dr. Özkan's practice is emergency medical assessment. When a patient arrives with an acute or worsening problem, he takes a focused history, performs a clinical examination and decides which investigations are needed to clarify the situation.

Urgent medical care forms the second part of his work. This covers the initial management of acute symptoms and the practical measures that can be started in the outpatient clinic before a patient is either discharged with instructions or transferred for further care. Emergency care coordination is the third area: Dr.

INTERNATIONAL PATIENTS

Dr. Özkan consults in Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a planned visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, arranges appointments and...
