DEPARTMENT
Neurosurgery

CLINICAL FOCUS

The clinical practice of Dr. Hacıhanefioğlu centers on neurosurgery, the branch of surgery concerned with disorders of the brain, the spine and spinal cord, and the nervous system more broadly. Within the Neurosurgery Unit he evaluates patients presenting with neurological symptoms, reviews their imaging and any previous treatment, and considers whether surgical management is appropriate in each individual case.

Each patient's situation is assessed on its own merits. Decisions about whether to operate, the timing of any procedure and the alternatives that may be available depend on the specific diagnosis, the findings on imaging, the patient's general health and the patient's own priorities. Dr.

INTERNATIONAL PATIENTS

Dr. Hacıhanefioğlu consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
