CLINICAL FOCUS

Dr. Teomete's clinical work covers a broad range of solid tumors. In gastrointestinal oncology, he manages patients with stomach cancer, pancreatic cancer, colon cancer and rectal cancer. His thoracic practice includes lung cancer and other thoracic cancers, an area reflected in his co-authored work on stage III and IV non-small cell...

In addition, he sees patients with testicular cancer and ovarian cancer, as well as patients with bone tumors. As a medical oncologist, his role centers on the planning and supervision of drug-based cancer treatment and on working alongside the other specialties involved in a patient's care.

Testicular cancer · Ovarian cancer · Stomach cancer
Pancreatic cancer · Rectal cancer

CONDITIONS TREATED
