DEPARTMENT

Psychiatry & Psychology

CLINICAL FOCUS

Dr. Dinçel's clinical work is devoted to the psychiatric assessment and care of children and adolescents. In this age group, emotional, behavioral and developmental concerns often present differently than in adults, and the assessment typically takes into account the child's stage of development, family circumstances, schooling and any relevant medical history.

General information about mental health conditions that may be encountered in psychiatric practice is available on this site, including pages on depression, eating disorders, obsessive compulsive disorder and post traumatic stress disorder. Whether a particular concern falls within Dr.

INTERNATIONAL PATIENTS

Dr. Dinçel consults in Turkish and English, and interpreters can be arranged for families who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports, such as previous psychiatric or psychological assessments, laboratory results, discharge summaries and any other relevant medical documentation, and arranges appointments and the...
