DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Dr. Özek's practice centers on pediatric neurosurgery. He evaluates and operates on children with deep-seated brain tumors and performs epilepsy surgery for patients in whom surgical treatment is considered appropriate.

In spinal surgery, he treats spinal deformities including kyphosis and scoliosis, performs kyphoplasty and vertebroplasty, and manages spinal and spinal cord tumors. Whether surgery is advisable, and which approach is used, depends on the individual patient's diagnosis, age, imaging findings, and overall condition.
