Hospital, İstanbul

DEPARTMENT
Radiation Oncology

CLINICAL FOCUS

Dr. Şengöz plans and delivers radiotherapy as part of cancer treatment. His areas of expertise include breast cancer, head and neck cancers, brain tumors and gastrointestinal oncology. He also performs brachytherapy, a form of radiotherapy in which the radiation source is placed close to or inside the area being treated;

His published work reflects these interests. He has co-authored studies on cisplatin-based concomitant chemoradiotherapy in locally advanced nasopharyngeal carcinoma, adjuvant radiotherapy combined with uracil-tegafur and leucovorin for locally advanced rectal cancer, concurrent chemoradiotherapy with low-dose weekly gemcitabine in stage...
