CLINICAL FOCUS

Merve Vural's areas of expertise cover several groups of conditions that are commonly seen in a psychology practice. Within the anxiety spectrum, she works with patients experiencing Panic Disorder, Social and Specific Phobias, Hypochondriasis and Obsessive Compulsive Disorder.

A further part of her practice concerns Eating Disorders, Hyperactivity and Adult Hyperactivity. She carries out Neuropsychological Assessment, a structured evaluation of cognitive functions that can support the understanding of a patient's difficulties and inform the planning of further care. In addition, she works with patients seeking help for Relationship Problems and Marital Problems.

Sleep Disorders

Hypochondriasis

Adult Hyperactivity

Eating Disorders

Post-Traumatic Stress Disorder

INTERNATIONAL PATIENTS

For patients travelling from abroad, the Acibadem international patient team coordinates the practical side of the visit. This includes collecting prior reports and records, such as previous psychological or psychiatric evaluations, discharge summaries and any relevant laboratory results, before arranging appointments and organising the hospital visit.
