HOSPITAL

Acibadem Bağdat Outpatient Clinic, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Fatih assesses and treats a range of bone and joint problems in adults and children. His areas of expertise include trauma, osteoporosis, hand injuries, and spinal conditions. In the lower limb he performs foot and ankle surgery and treats meniscal tears of the knee.

Pediatric orthopedics is a further area of his practice, alongside his earlier years in pediatric-focused general practice. Treatment recommendations are made after a clinical assessment and a review of the available imaging, and the choice between surgical and non-surgical management depends on the individual findings.

INTERNATIONAL PATIENTS

Dr. Fatih consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and...
