Acibadem Maslak Hospital,
İstanbul

DEPARTMENT

Pediatric Infectious
Diseases

CLINICAL FOCUS

Dr. Özen evaluates and manages lower respiratory tract infections in children, including bronchiolitis, bronchitis and pneumonia. Viral infections that commonly affect infants and young children, such as RSV infection and rotavirus infection, are also part of his practice.

He also sees children with skin and mucosal infections, including impetigo and oral thrush, and with childhood rash illnesses such as chickenpox and measles. Children with recurrent fever episodes are evaluated for conditions such as PFAPA syndrome, where a careful history of fever pattern and accompanying findings guides the diagnostic...
