CLINICAL FOCUS

Dr. Çakmakçı's surgical practice covers breast diseases, including breast cysts, breast screening, and breast cancer. He performs thyroid surgery as part of his endocrine surgery work, and he treats inguinal hernia.

His published work reflects both his surgical interests and a long-standing involvement in infection control and health care quality. Publications on which he is an author include studies on gamma probe-assisted sentinel lymph node evaluation in breast cancer after neoadjuvant chemotherapy, HER2/neu gene amplification in breast...
