Hospital, İstanbul

DEPARTMENT
General Surgery

CLINICAL FOCUS

Dr. Ertem's areas of expertise include digestive system surgery and the assessment and surgical management of pancreatic diseases, liver diseases and biliary tract diseases. A further part of his practice is the treatment of hemorrhoids and other anorectal diseases, an area in which he is also active through the Turkish Colon and Rectal...

His work also covers abdominal wall surgery, including inguinal hernia repair and umbilical hernia repair, as well as thyroid surgery and mastectomy. Whether surgery is appropriate, and which approach may be suitable, depends on the individual patient's diagnosis, overall health and previous treatment.

Mastectomy

Inguinal hernia repair

Umbilical hernia repair
