DEPARTMENT

Clinical Laboratory

CLINICAL FOCUS

Dr. Taşlıpınar's areas of expertise are clinical biochemistry, laboratory medicine, laboratory diagnostics and the interpretation of laboratory findings. Laboratory medicine supports the work of treating physicians by providing measurements from blood, urine and other samples that help in assessing a patient's condition, following a...

Interpretation of laboratory findings involves considering results alongside the patient's history, current medications and the methods used for testing, since reference ranges and analytical approaches can differ between laboratories. Dr.
