DEPARTMENT
Urology

CLINICAL FOCUS

A significant part of Dr. Bayındır's practice is devoted to men's health. He evaluates and treats patients with concerns related to men's reproductive health and infertility, and provides sexual dysfunction treatment. He also sees patients with sexually transmitted infections. In the area of bladder health, he assesses and manages urinary incontinence and other bladder conditions.

Dr. Bayındır's clinical interests also extend to the kidney. He treats a range of kidney diseases, including kidney stones, kidney failure and hydronephrosis, and he evaluates patients with hematuria (blood in the urine). His practice includes urological cancers, among them kidney cancer. In pediatric urology, he sees children with urological concerns, including undescended testicles.

INTERNATIONAL PATIENTS

Dr. Bayındır consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
