CLINICAL FOCUS

Dr. Kasab's clinical work is centered on Family Medicine and General Practice. In this setting he acts as a first point of contact for patients, assessing new symptoms, reviewing existing conditions and previous treatments, and helping patients understand which further steps or specialist input may be appropriate.

Alongside general practice, his listed expertise includes Supportive Mental Health Care and Psychological Well-being, reflecting his earlier roles in London at Quo Vadis Trust and Astoria Homecare Limited. In practice this means that psychological well-being can be considered as part of a general medical assessment, and that patients who wish to raise such concerns can do so within a primary care consultation.

INTERNATIONAL PATIENTS

Dr. Kasab consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
