DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Dr. Kalelioğlu's clinical work covers both cranial and spinal neurosurgery. In the spine, his areas of expertise include spine health in general and back, neck and spinal disc disorders. In the brain, he evaluates and treats brain tumours, including gliomas and meningioma, together with pituitary disorders, brain aneurysm, brain...

His areas of expertise also include hydrocephalus, neuroblastoma and hemiplegia. Each case is assessed individually on the basis of the patient's history, neurological findings and imaging, and treatment options are discussed with the patient after this review.
