Neurology

CLINICAL FOCUS

A large part of Dr. Koçak's practice concerns pain conditions of neurological origin. She evaluates and manages headache, including migraine, as well as trigeminal neuralgia and pelvic pain. She also assesses patients with peripheral neuropathy and works with clinical neurophysiology in the investigation of nerve and muscle disorders.

Dr. Koçak also cares for patients with movement disorders and Parkinson's disease, and for patients with cognitive decline, including dementia and Alzheimer's disease. Her work in this area addresses neurological changes associated with aging, with assessment and care planning adapted to each patient's history, symptoms and existing...
