CLINICAL FOCUS

Dr. Akbaba evaluates and treats common inflammatory skin conditions, including acne, eczema, psoriasis, and rosacea. His clinical work also covers skin infections such as fungal infections, as well as genital warts and other sexually transmitted diseases. He sees patients with Behçet's disease and bullous pemphigoid, and he provides care for pediatric urticaria and pigment disorders.

A further part of his practice involves the assessment of skin lesions. This includes mole mapping and treatment, the monitoring of moles over time, and the evaluation of melanoma and other skin tumors. Dr. Akbaba also addresses hair loss and offers treatment for hyperhidrosis, including botulinum toxin treatment.
