Internal Medicine

CLINICAL FOCUS

A substantial part of Dr. Kara's practice concerns thyroid disease. He evaluates and manages thyroid nodules, thyroid cancer, goiter, Hashimoto's disease, hyperthyroidism and Graves' disease, as well as other thyroid disorders.

Dr. Kara also sees patients with obesity and morbid obesity, offering medical evaluation and follow-up of weight-related metabolic conditions. His further areas of interest include menopause, growth and puberty, pituitary and adrenal conditions, autoimmune endocrine disorders and endocrine pancreatic tumors.
