CLINICAL FOCUS

A central part of Dr. Bilgehan's practice is urinary incontinence and bladder health. Patients who experience involuntary urine leakage, urgency, or other bladder symptoms are assessed to identify the underlying cause before any treatment is discussed.

Dr. Bilgehan also treats sexual dysfunction. In this area, the consultation typically involves a careful review of the patient's history and symptoms, consideration of possible contributing factors, and a discussion of the available options.

Sexual dysfunction treatment

INTERNATIONAL PATIENTS

Dr. Bilgehan speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
