CLINICAL FOCUS

Munise Nilay Güven works within physical medicine and rehabilitation, where physiotherapy is used to help patients regain movement and function after illness, injury or a period of reduced activity. Her listed areas of expertise are physiotherapy, physical medicine and rehabilitation, mobility improvement, functional recovery and rehabilitation support.

Rehabilitation support of this kind is often one part of a wider treatment plan that is coordinated with the physicians responsible for a patient's medical care. The scope and duration of physiotherapy vary from person to person and depend on the underlying condition, the patient's general health and the goals agreed at the start of treatment.
