HOSPITAL  
Acibadem Atakent Hospital, İstanbul

DEPARTMENT  
Plastic, Reconstructive & Aesthetic Surgery

### CLINICAL FOCUS

In aesthetic surgery, Dr. Kendir performs breast augmentation and breast reduction, rhinoplasty, otoplasty, surgical facelift, and bichectomy. His body procedures include abdominoplasty, liposuction-assisted body contouring, and the combined procedures sometimes described as a mommy makeover.

On the reconstructive side, Dr. Kendir's practice includes reconstructive surgery with a focus on advanced limb reconstruction, the management of skin tumors, and wound care. His published work reflects an interest in replantation after finger amputation and in the use of muscle and perforator flaps to cover tissue defects.
