Neurology

CLINICAL FOCUS

Dr. Aksu evaluates and treats a broad range of neurological conditions. His work in epilepsy is supported by his training in clinical neurophysiology. In headache care, he treats migraine and applies advanced migraine treatment protocols, including migraine vaccines and biological agents.

In the field of neuromuscular disorders, Dr. Aksu manages myopathies and myasthenia gravis. His practice further covers multiple sclerosis and neurodegenerative conditions associated with aging, including dementia, Alzheimer's disease and Parkinson's disease.
