## CLINICAL FOCUS

Dr. Kiraz's clinical practice centers on spine health. He evaluates and treats lumbar spinal canal stenosis and cervical spinal canal stenosis, as well as spine tumors and spinal cord tumors. His areas of expertise also include gliomas, hematomas, transverse myelitis, and anencephaly.

In addition to spinal surgery, Dr. Kiraz works with device-based approaches for pain management, including spinal cord stimulation and epidural nerve stimulation. Whether such approaches are appropriate is determined after a detailed neurosurgical assessment and a review of previous treatments.
