Emergency Service

CLINICAL FOCUS

Dr. Sağlam's work centers on the initial assessment and care of patients who present to the Emergency Service. In this setting, the first step is to establish how urgent a patient's condition is and what immediate needs must be addressed. This involves taking the available history, examining the patient and reviewing any information that accompanies them, such as previous reports or medication lists, when these are at hand.

Once an initial assessment has been made, the next steps depend on the findings. Further investigations may be considered, and the involvement of other hospital departments may be appropriate when a patient's condition calls for it. For patients who are visiting from abroad, the Emergency Service functions as a point of entry when a medical problem arises unexpectedly during their stay, and evaluation proceeds according to...

INTERNATIONAL PATIENTS

Dr. Sağlam consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. For planned visits, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
