CLINICAL FOCUS

Dr. Şamlı's clinical work covers prostate disease diagnosis and treatment, bladder health and diseases, and urological cancers, including testicular cancer and kidney cancer. He also evaluates and treats kidney diseases, hydronephrosis, urinary incontinence and undescended testis.

In andrology, he sees men with male infertility, erectile dysfunction and other forms of sexual dysfunction, and his interests also include sexually transmitted diseases. His published research includes work on genetic anomalies in men with non-obstructive azoospermia and oligozoospermia, the induction of spermatogenesis with...
