Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Asan's practice covers three closely related areas of anesthesiology and reanimation. Advanced life support refers to the structured measures used when a patient's breathing or circulation is failing, including airway management, support of breathing and circulation, and the medications used during resuscitation.

Palliative care is a further part of his work. It focuses on relieving pain and other distressing symptoms and on supporting comfort and quality of life for patients with serious or advanced illness, alongside other treatments where appropriate. As an anesthesiologist, Dr.

INTERNATIONAL PATIENTS

Dr. Asan speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
