DEPARTMENT

Physical Medicine & Rehabilitation

CLINICAL FOCUS

Dr. Çorum's clinical work covers a broad range of rehabilitation needs. He works with robotic rehabilitation, spine health and manual therapy, and treats chronic muscle pain and fibromyalgia.

His published research reflects these interests. He has authored or co-authored peer-reviewed studies on robot-assisted training for patients with upper limb amputations who use myoelectric prostheses, on complex decongestive therapy for breast cancer-related lymphedema, on spinal manipulation, myofascial release and exercise in...
