CLINICAL FOCUS

A central part of Dr. Gürsel's practice is the evaluation of sleep disorders and snoring. He assesses patients whose sleep or daytime function is affected by upper airway problems and discusses the diagnostic and treatment options that may be appropriate in each case.

On the nasal and sinus side, Dr. Gürsel performs endoscopic sinus surgery for suitable patients with chronic sinus conditions and septoplasty for a deviated nasal septum that contributes to breathing difficulty. His work also includes adenoid conditions and salivary gland diseases.

INTERNATIONAL PATIENTS

Dr. Gürsel consults in Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as CT or MRI reports, hearing test results, sleep study reports, laboratory results, operative notes and discharge summaries, and arranges the...
