## CLINICAL FOCUS

Interventional radiology uses imaging guidance to perform procedures through small access points rather than open surgery. In this field, Dr. Parıldar evaluates imaging findings, discusses whether an image-guided approach is appropriate for a given patient, and plans procedures on the basis of that assessment.

Diagnostic imaging plays an important role in this work. Existing scans are reviewed, and further imaging may be considered where it would help to clarify the findings or to plan a procedure. Information on related imaging services available on this site includes Coronary CT Angiography and PET-CT Imaging.
