Acibadem Atakent
Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Sungur's practice covers a range of orthopedic conditions in children and adults. In pediatric orthopedics he assesses and treats clubfoot (pes equinovarus) and bone cysts in children. In orthopedic oncology his work includes the evaluation and surgical management of bone tumors, sarcomas, and soft-tissue tumors.

His published work reflects several of these interests. He has co-authored papers on the surgical management of sacral chordoma, on resistance-related proteins and their relation to prognosis and survival in patients with osteosarcoma, on foot deformities and treatment with the Ilizarov method, on neuropathic arthropathy of the shoulder...

Clubfoot (pes equinovarus)

Bone cysts in children

Diabetic foot surgery

Charcot foot surgery

Bone tumors

CONDITIONS TREATED

Clubfoot (pes equinovarus)

Bone cysts in children

Diabetic foot surgery

Bone tumors

Soft-tissue tumors
