Treatment of Hemorrhoids and Anorectal...

HOSPITAL
Acibadem Kozyatagi Hospital, İstanbul

DEPARTMENT
General Surgery

CLINICAL FOCUS

A central part of Dr. Tanıdır's practice is the treatment of hemorrhoids and other anorectal diseases. Patients with these conditions are assessed through a clinical history and physical examination, and the appropriate treatment is determined according to the type and severity of the condition identified at consultation.

Dr. Tanıdır also treats abdominal wall hernias, including umbilical hernia and inguinal hernia. Hernia care involves confirming the diagnosis, evaluating the patient's symptoms, and discussing whether and when surgical repair is advisable for that individual.

Umbilical hernia Haemorrhoids Anorectal disease treatment
Inguinal hernia Mastectomy

CONDITIONS TREATED

Umbilical hernia Haemorrhoids Anorectal disease treatment
