Gynecology & Obstetrics

CLINICAL FOCUS

His clinical interests include fertility and infertility, polycystic ovary syndrome, endometriosis treatment, ectopic pregnancy and urogynecology. In the reproductive medicine setting, he evaluates women and couples who have difficulty conceiving, reviews the possible contributing factors and discusses the diagnostic and treatment...

Dr. Taş also manages ectopic pregnancy and sees women with urogynecological complaints, assessing symptoms and discussing suitable management within the relevant unit. Alongside his clinical work, he has co-authored publications in peer-reviewed journals on topics such as the antiproliferative effects of metformin and progesterone on...
