Gastroenterology

CLINICAL FOCUS

A central part of Dr. Yalçın's practice is the assessment and long-term care of patients with inflammatory bowel disease, including Crohn's disease and ulcerative colitis. These are chronic conditions in which symptoms may vary over time, and their management typically involves establishing the diagnosis, assessing disease extent and...

Dr. Yalçın performs gastroscopy, colonoscopy and oesophagoscopy, which allow direct examination of the upper and lower digestive tract and, where appropriate, the collection of tissue samples. He also performs ERCP, an endoscopic procedure used in the evaluation and treatment of certain conditions affecting the bile ducts and pancreas.
