DEPARTMENT
General Surgery

CLINICAL FOCUS

A substantial part of Dr. Okar's work concerns anorectal diseases. He assesses and treats hemorrhoids and anal fissures as well as other anorectal conditions, and he discusses with each patient whether a non-operative approach or a surgical procedure is appropriate for their situation.

Dr. Okar also performs hernia repair, including inguinal hernia repair and umbilical hernia repair, and undertakes thyroid surgery for patients whose thyroid condition has been judged to need an operation. In breast surgery, his areas of expertise include mastectomy.

Thyroid surgery

Anal fissure treatment

Hemorrhoid treatment

Anorectal disease treatment

Umbilical hernia repair

INTERNATIONAL PATIENTS

Dr. Okar consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior medical reports and imaging, such as ultrasound, CT or MRI reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
