CLINICAL FOCUS

A large part of Dr. Gemrekoğlu's work concerns the diagnosis and treatment of gum disease and related conditions. This includes gum bleeding, gum abscess, gum recession, oral sores, and bad breath. She also carries out dental calculus removal and offers laser gum treatment as part of periodontal care.

Her practice also covers the aesthetic side of periodontology. This includes gum aesthetics and Botox for a gummy smile, where a larger than usual amount of gum tissue is visible when smiling. Whether the concern is a medical one, an aesthetic one, or both, the suitability of any particular procedure is assessed on an individual basis after a clinical examination, and the options are discussed with the patient before...

INTERNATIONAL PATIENTS

Dr. Gemrekoğlu sees patients in Turkish and English, and interpreters can be arranged for other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as dental X-rays, CT reports, laboratory results, and notes from earlier dental or periodontal treatment, and arranges appointments and the hospital visit.
