CLINICAL FOCUS

Dr. Şahin evaluates and treats a range of orthopedic conditions in adults and children. His areas of expertise include foot and ankle surgery, limb lengthening, bone tumors, pediatric bone cysts and general pediatric orthopedics.

His published work reflects these interests and includes studies on fixation methods in pediatric forearm fractures, tranexamic acid and blood loss after total knee replacement, the axial shape of the distal femur in osteoarthritis, frozen shoulder, proximal tibial osteotomy in medial compartment osteoarthritis, and ethical issues in...
