## HOSPITAL

Acibadem Kent Hospital (Izmir)

## DEPARTMENT

Plastic, Reconstructive & Aesthetic Surgery

## CLINICAL FOCUS

Dr. Ibrahimli's areas of expertise are aesthetic plastic surgery, reconstructive plastic surgery and cosmetic surgery. Aesthetic and cosmetic surgery address the appearance of a body area according to the patient's own goals, while reconstructive plastic surgery is concerned with restoring form and function.

Because these procedures are elective in many situations, Dr. Ibrahimli places emphasis on the consultation itself. Patients are encouraged to describe their expectations in their own words so that the surgical assessment can be matched to those expectations, and so that alternatives, limitations and the recovery period can be explained before any decision is made.

Aesthetic plastic surgery

Reconstructive plastic surgery

Cosmetic surgery

## INTERNATIONAL PATIENTS

Dr. Ibrahimli consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and organises the hospital...
