HOSPITAL
Acibadem Altunizade Hospital, İstanbul

DEPARTMENT
Otorhinolaryngology (ENT)

CLINICAL FOCUS

Nazlı Can Üstün's areas of expertise are hearing loss, pediatric hearing loss, audiometry, and BERA (ABR) testing. Her assessments are directed at understanding the nature of a patient's hearing concern and selecting diagnostic testing that fits the individual situation. For adults, this typically involves an audiometric evaluation to document hearing thresholds.

Working within the ENT unit, she carries out hearing evaluations that support the wider clinical assessment of patients seen by the otorhinolaryngology team. Test results are interpreted cautiously and in the context of the patient's history, and the findings are used to inform discussion of appropriate follow-up.

INTERNATIONAL PATIENTS

Nazlı Can Üstün speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as earlier hearing test results, MRI or CT reports, laboratory results and discharge summaries, and arranges appointments and the hospital visit.
