Reanimation

CLINICAL FOCUS

Anesthesiology is Dr. Ormanci's primary specialty. In general terms, this field is concerned with the planning and delivery of anesthesia, the monitoring of a patient's vital functions during procedures, and care in the period surrounding them. Within his unit, anesthesiology is combined with reanimation, and resuscitation is one of the areas of expertise listed for him.

Palliative care is also among the listed areas. This branch of medicine focuses on relieving symptoms such as pain and on supporting the comfort of patients living with serious illness, alongside or independently of treatment directed at the disease itself.

Palliative care Anesthesiology Resuscitation

INTERNATIONAL PATIENTS

Dr. Ormanci consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the hospital's international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the...
