CLINICAL FOCUS

The areas of expertise listed on this profile are pediatric rehabilitation, physiotherapy for children, rehabilitation assessment, individualized physiotherapy planning and functional support for children. In practice, this work usually begins with a rehabilitation assessment, in which the child's current functional abilities, movement patterns and daily-life needs are...

Individualized physiotherapy planning means that goals and exercises are selected for the particular child rather than applied as a fixed program. Neslihan Yıldızdağı adjusts the plan over time as the child's needs change, and progress is reviewed at intervals.
