CLINICAL FOCUS

A substantial part of Dr. Sarıgüzel's practice concerns infections that are transmitted sexually or through blood. She assesses and manages patients with HPV, syphilis and other sexually transmitted infections, and she follows patients with HIV and AIDS.

Dr. Sarıgüzel also sees patients with lower respiratory tract infections and with shingles, as well as adults with other infectious diseases requiring specialist evaluation. Preventive care is a further focus of her work: she provides guidance on adult vaccination and offers travel health consultations, in which she reviews a traveler's...
