DEPARTMENT
Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Görgülü's practice centers on intensive care treatment. This includes the care of patients who require close monitoring, advanced life support and coordinated management of several organ systems at the same time.

Her work further extends to pain management and palliative care. Pain management in this context addresses both acute pain, for example after surgery or injury, and pain that accompanies serious or long-term illness.

Intensive Care Treatment Palliative Care Advanced Life Support
