CLINICAL FOCUS

A large part of Dr. Ün's practice concerns diseases of the retina and the inner eye. He assesses and manages patients with macular degeneration, other retinal diseases and uveitis, conditions in which regular examination and monitoring are often part of care. He also treats glaucoma and cataract.

Dr. Ün also sees children and adults with paediatric and developmental eye conditions. His areas of expertise in this field include:

Uveitis

Strabismus

Macular degeneration

Retinal diseases

Colour blindness

INTERNATIONAL PATIENTS

Dr. Ün consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as previous eye examination findings, imaging reports, laboratory results, operative notes and discharge summaries, and arranges appointments and the hospital...
