Psychiatry & Psychology

CLINICAL FOCUS

Dr. Aliyeva's clinical work centers on the assessment and treatment of emotional and behavioral difficulties in childhood and adolescence. Her listed areas of expertise include depression and anxiety disorders, obsessive-compulsive disorder and post-traumatic stress disorder.

Neurodevelopmental conditions form a further part of her practice, and autism spectrum disorder is among the conditions she assesses. As in child and adolescent psychiatry generally, evaluation takes into account the child's developmental stage, the family context and any earlier assessments, and the approach to treatment is discussed...

Depression and anxiety disorders
