Anesthesiology & Reanimation

CLINICAL FOCUS

Dr. Baykan's practice centers on anesthesia care for patients undergoing surgery, with a particular focus on neuroanesthesiology and neurosurgical anesthesia. Her published work includes a report on the anesthetic management of a pregnant patient during an emergent craniotomy for a brain tumor combined with a cesarean section in the same...

Beyond the operating room, her areas of expertise include critical care and enteral and parenteral nutrition, that is, nutritional support delivered through the digestive tract or intravenously for patients who cannot eat normally. She is also involved in the field of carotid and vertebral artery transluminal angioplasty. Dr.
