CLINICAL FOCUS

A large part of Dr. Oğuz's work involves chronic inflammatory skin diseases. She assesses and manages psoriasis, atopic dermatitis, eczema and other dermatitis conditions, lichen planus, rosacea and acne. She also evaluates patients with alopecia areata and other hair and nail concerns.

Her practice also covers infectious skin conditions, including impetigo, other bacterial skin infections, fungal conditions and warts, as well as sexually transmitted infections with skin manifestations such as genital herpes and syphilis. On the procedural side, Dr.
