CLINICAL FOCUS

Dr. Alkan's clinical focus spans routine and preventive pediatric care as well as common acute and chronic conditions of childhood. Healthy child follow-up forms a central part of her practice, including monitoring of growth and development and the evaluation of childhood developmental disorders.

Her areas of expertise further include pediatric infectious diseases and pediatric upper respiratory tract infections. She evaluates children who have experienced febrile seizures and manages childhood constipation.

INTERNATIONAL PATIENTS

Dr. Alkan consults in Turkish and English, and interpreters can be arranged for families who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, such as laboratory results, ultrasound or X-ray reports, previous screening results, and discharge summaries, and...
