DEPARTMENT
Anesthesiology & Reanimation

CLINICAL FOCUS

Dr. Yumuk's practice centers on anesthesiology and reanimation. This includes assessing patients before an operation, planning and delivering anesthesia during the procedure, and following patients in the period immediately afterward.

A particular area of her work is regional anesthesia, in which specific parts of the body are numbed rather than the whole patient being placed under general anesthesia. Whether regional or general anesthesia, or a combination, is appropriate depends on the type of procedure, the patient's overall health, and the preferences of the...
